REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 2-4 are allowable over the references of record because none of these references disclosed or can be combined to yield the claimed invention such as ferroelectric capacitors of one set of memory cells adjacent to each other in the word line direction among the plurality of memory cells are placed at positions offset from each other in the bit line direction; a plate line is placed in common for the ferroelectric capacitors for the set of memory cells; and bit line contacts each for connecting a bit line and an active region of the transistor are placed on both sides of the plate line in the bit line direction.

Claims 2 and 3 are allowable because claim 4 is generic to claims 2 and 3. Claim 8 does not recite the bit line contacts each for connecting a bit line and an active region of the transistor are placed on both sides of the plate line in the bit line direction as recited in claim 4, therefore claim 4 is not generic to claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
